

Clasping the Situation

Nancy Wilson

Supply List

The supply list is pretty basic... bring old beads, pendants, pins, brooches etc. to class and let's see what we can do with the items.

A pencil and paper would also help. We are going to draw out some designs for your clasps that you will use as patterns for wire bending.

Bring food and refreshments... this is fun and hopefully you will make this a party as well as a class.

I will also show you how to ball up wire, clean, and burnish the metal.

Your supply bag will contain, silver wire, copper wire, crimp beads and you may use the beadalon wire that is available. If you have reading glasses bring them if you can't see tiny things. There will also be a box of extra beads that you can use. The materials will cost about \$10 payable to instructor at the beginning of the class.
